Leaving Oct. 9, 2001 04:17:04 AM EST

This progression involves the merging of the two most feminine symbols in astrology. Females may find this a time when their feelings are strongly accentuated, a time of close bonding with other women and with family. Men may find it a time when they are more involved with the feminine world, either through interests and activities, or direct personal involvement. Both will feel an urge to partner and nest, and strong sexual inclinations. Find creative outlets for these feelings also in social life, artistry, and domestic activities.

You may also experience this progression on the physical level in the form of heat, stress, bites, burns, muscles strain, and possibly heart and back problems. So don't overdo it. Your self-interest (i.e., ego) is high, bringing out the activist, warrior, and hero in you. Your patience level is low and stressful circumstances may bring out the beast in you. Anger at someone or something may be building up. Try to release it in a constructive way. Relationships will be stressed now and this is not the best time for compromises or adjustments to others and their needs.
